

Biodiversity & Carbon Footprints

Measure,
Act,
Improve.

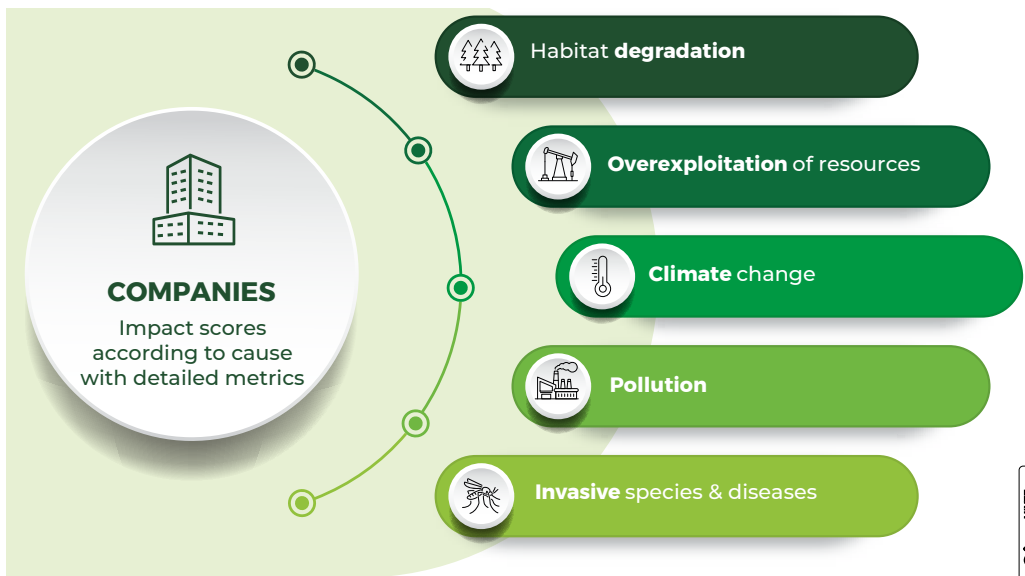

Your SaaS solution
for environmental
decision-making
support.

Environmental labelling, non-financial biodiversity reporting, **choose our integrated solution.**

Get ahead of regulatory changes by
evaluating your products' environmental
rating based on the 5 causes of biodiversity
loss (including carbon).

Our strength

Depending on which
country your raw
materials come from, their
environmental impact
differs.
Space data allows us to
contextualize their impacts
and gain in accuracy.

Supported by the
European Space Agency
and the CNES.
