TOWN

Concept:

- street light series
- conical section
- variable curvature, providing considerable freedom to optimise their orientation and create a formal result in apparent movement.
- The tree-like composition of this series enhances its integration into vegetated environments

- Multifunctional luminaire.
- Ip66 Aluminum fusion – IK10
- 6,000 to 23,000 lm
- Optical flexibility (road – projection)
- Excellent LED optical performance

ARABESQUE

GOTA

Concept:

- Herzog & de Meuron
- Specially designed to illuminate wide open spaces, inviting people to visit and enjoy the local space and
- It transforms the emotional state of the outdoor environment making it welcoming and festive.
- The shape of GOTA evokes a drop of water dripping from the weed.

- Three different sizes
- Aluminium - PMMA
- IP66 - IK08
- Solid anchoring system
- Stainless cable: up to 30 m.
- Dyna-flex cable: Up to 60 m.
