

We offer an innovative solution to integrate renewable energies in commercial, institutional and industrial buildings

A TURNKEY SOLUTION

1 SAVE ON YOUR ENERGY COSTS

A project carried out with **vadiMAP** allows significant savings with paybacks of only a few years.

2 MAKE YOUR BUILDINGS MORE RESILIENT, SELF-SUFFICIENT AND ENERGY-SMART

A project carried out with **vadiMAP** makes your buildings more resilient to power outages while reducing your losses related to the operations of your company. Depending on how essential your operations are, you will be offered total or partial autonomy.

3 REDUCE YOUR CARBON FOOTPRINT

A project carried out with **vadiMAP** supports your ecological mission and responsibilities as a corporate resident. All elements of the project seek to emphasize sustainable and local development. The entire vadiMAP team shares this pride in contributing for future generations.

THE BENEFITS:

A single solution provider for all your buildings, regardless of their geographic location.

Accelerated decision-making guided by advanced algorithms.

A feasibility analysis for a fraction of the time and cost with the **vadiMAP** prescription.

HOW WE DO IT

The **vadiMAP** solution is based on a user-friendly online platform, an approach led by a specialized project manager and our NGSE (NanoGrid Simulation Engine) which aggregates the data available on the market with the particularities of your building to provide you a personalized renewable energy system prescription.

Analysis:

Online questionnaire with the assistance of a project manager. This meeting will take a maximum of 1 hour.

Quotation:

Turnkey process with one of our prequalified installation partners for local products and services.

Satisfaction:

From the start until the commissioning of the project, your satisfaction is our team's priority. We seek to develop a long-term relationship with our clients.

Prescription:

Feasibility analysis included in the customized **vadiMAP** prescription report (5 to 9 pages).

Installation:

In collaboration with the **vadiMAP** project manager, achievement of your project with the prequalified installation partner..

« With vadiMAP, we wanted to make a big impact. For the energy transition of course but above all for those managing buildings for whom energy has become a headache. We knew that it had to go through both technology and know-how. For the planet, vadiMAP is sort of our Ikigai, the reason we get up every morning. »

Dan Boucher, Chief Executive Officer & Founder
