offers full connectivity to your smartphone
and the cloud. It integrates **GPS, 3G,**
WI-FI AND BLUETOOTH for the most intuitive ride
and advanced safety monitoring.

WORLD CLASS
USER INTERFACE
FOR THE MOST
INTUITIVE RIDE

UJET APP

Control your scooter directly through your iOS or Android app wherever you are.

UNLOCK REMOTELY

With a simple click on your screen. Your smartphone is your key!

SHARE WITH FRIENDS

Let your friends or family enjoy the modern urban ride and never lose sight of your Ujet thanks to our tracking feature.

PERFORMANCE MONITORING

Your app will tell you your battery level, electricity consumption and range.

THEFT ALARM

Get a warning when your scooter moves without your command – you will even be able to disable your Ujet remotely!

GEO LOCATOR

It calculates the distance to your Ujet and guides you via our innovative augmented reality feature.

SERVICE & SUPPORT

Get an immediate warning if something is wrong with your scooter. We are here to help you.

NANOAugmented MATERIALS

FOR FIRST PRODUCTIONS

Specially designed tires with increased grip and reduced abrasion.
High performance special polymer compound for plastic elements.

FOR FUTURE PRODUCTIONS

Lithium-ion batteries with increased power and capacity
with TUBALL™ inside.

Special super resistant coatings.

New engineering thermoplastics.

New composites on the base of CNT-paper.

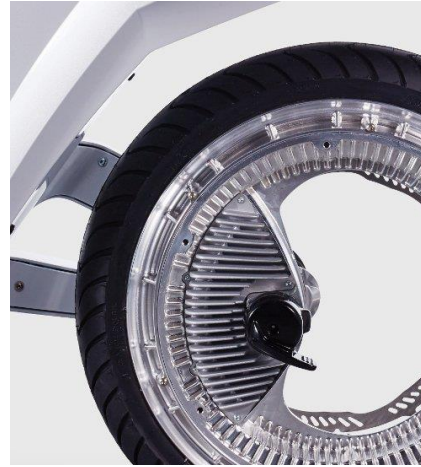

SAFE AND ENJOYABLE RIDE

UNIQUE SUSPENSION AND BRAKES

Our wheels design enables smooth and safe ride, thanks to Ujet innovative suspension system and larger diameter lightweight brakes.

POWERFUL MOTOR

Offering performance of 5.44 hp and 90 Nm torque, Ujet always ensures you will get great acceleration in any conditions.

LEADING-EDGE TIRE

Never lose traction and get increased grip thanks to the world's first nano-augmented tire. It is the lightest in its class, developed specifically for Ujet.

SMART LED LIGHTS

Integrated sensors adapt your brightness to the ambient light conditions.

EASY TO HANDLE

The Ujet's **ULTRA-LIGHT AND ROBUST FRAME** is made of advanced composite materials traditionally used in Aerospace.

With the total weight from 43 kg, no other scooter lets you ride so easily.

Ujet folds in seconds. It can be **STORED EASILY** in your home, office, trunk of your car or yacht. Ujet is convenient small wherever you are.

EASY TO CHARGE

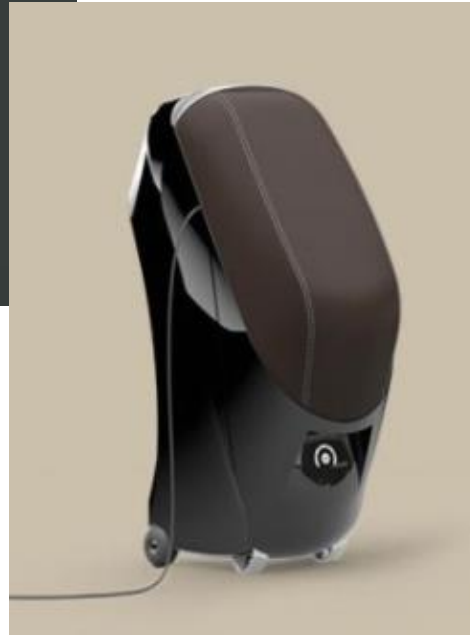

Select between two battery sizes with an estimated **RANGE UP TO 70KM OR 150KM.**

Charge your Ujet from any regular socket and be ready to ride in **2 HOURS** with the fast charger.

Ujet smart battery is safe, **CONNECTED, REMOVABLE AND ROLLABLE.**

Take your battery wherever, use it as a powerbank for your devices, and enjoy your favorite tunes via integrated wireless speakers.

MAKE IT YOURS

CUSTOMIZE THE UJET TO FIT YOUR STYLE.

Select between the Diamond or Curved shape,
low or high seat, and 5 refined color options.

MANUFACTURING

UJET MANUFACTURING started in October 2017 in Foetz, Luxembourg.
EU Homologation completed second half of 2017.

ESSENHUT

CREATING A WHOLE NEW MARKET

Our Ujet scooter falls within both the electric and petrol vehicles market.

UJET will attract customers in the current market, but most importantly will create a new market for urban mobility solutions as well as establish a market for a prestige brand of smart scooters.

There are no direct competitors in the prestige space for smart scooters with similar attributes.

A **DISTINCTIVE BRAND** WITH A STRONG ICONIC MODERN IDENTITY

**BUILDING A MASSTIGE LUXURY
BRAND WORLD**
