

Tracking bird made easy ...

[www.xeriustracking.fr](http://www.xeriustracking.fr)

---

**March 2016**  
*XeriusTracking*

Development of  
a department dedicated to wildlife  
monitoring & tracking

Technology

**2011**  
*Stratus, beginning of the tracking success story*

1st GPS/VHF transmitter,  
10 grams with autonomous  
receiver

**Summer 2013**  
*Alteos*

1st Argos/GPS & VHF PTT  
Weight starting from 18grams  
High performance

**2013**  
*Goniometer RXG-134*

Unique in the world, exclusive  
partnership with CLS

Biodiversity

Technology

**1999**  
*Xerius, radiofrequency engineering*

17 years of experience  
in the M.I.A.s sectors

Innovation

## ADAPTABILITY

« *Each study is different...* »

Weight, fixation, harness,  
programmation & autonomy

## SAVOIR-FAIRE

« *More than 17 years experience* »

Innovatives sectors and highly technical :  
military, industrial & aeros

## TECHNICAL EXPERTISE

Development from A to Z internally

Software, 3D modelisation,  
embedded program, CAO

## WARRANTY

2 years

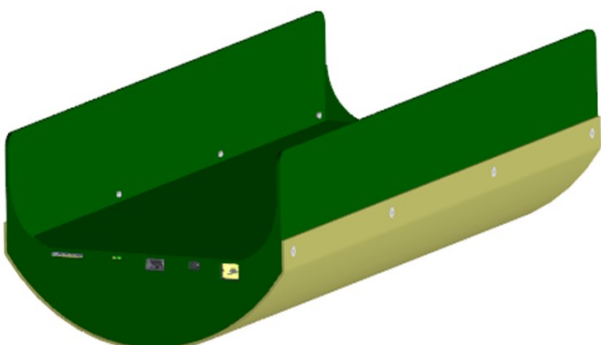

Never had return since it creation

## PARTNERSHIP

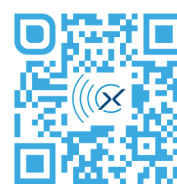

Together for the biodiversity

CLS, ADEME, Sigfox Foundation, Federations
